TITLE : APPARATUS FOR DRIVING FILM  
SUPPORT

ABSTRACT : PURPOSE: To provide the subject apparatus, capable of efficiently carrying out driving operation without interrupting the visibility of a driving part and useful for agriculture, etc., by installing a support penetrator provided so as to enable the penetration of film supports received from a support feeder into soil at a prescribed interval at a position a little toward a traction car body.

CONSTITUTION: This apparatus for driving film supports is equipped with the plural inverted U-shaped film supports 6, a support holding tool 5 supporting the film supports 6, a support feeder 7 for transferring the film supports 6 taken out of the support holding tool 5 to a support penetrator 8 and the support penetrator 8 installed so as to penetrate the film supports 6 received from the support feeder 7 into soil at a prescribed interval. The support penetrator 8 is provided at a position a little toward a traction car body 1.
